

BioCON Presents: From Grad School to Industry

Dr. Liliana De La Paz, Ph.D.
Associate Director, Drug Product at Jazz Pharmaceuticals

Liliana De La Paz is an Associate Director of Drug Development at Jazz Pharmaceuticals, where she works on the discovery and development of life-changing medicines for people with serious diseases so they can live their lives more fully. Prior to Jazz, she worked at Gilead Sciences for 5 years as a scientist in drug development across various disease types. Liliana received a Ph.D. from Stanford University and a B.S. from UC Berkeley, all in chemical engineering. Liliana is an active participant of various mentorship programs to advance the representation of underrepresented, first generation students in STEM fields. Liliana is a proud Bay Area native and is passionate about working for causes that increase access, diversity, and inclusion in STEM education and careers.
